

Dear Friend:

Russ Feingold is getting very nervous.

He thinks you haven't been paying attention as he spent our nation into debt, ignored the economy and tried to force a government takeover of our health care. It's catching up to him and the polls prove it!

**Two recent polls show Terrence within striking distance of Russ Feingold.**

- Respected polling firm Public Opinion Strategies says Russ Feingold is well below the 50% needed for victory – a majority (54%) of the voters would rather have a new person as their US Senator than re-elect Feingold (37%).
- Feingold fairs even worse with un-decideds – 64% would rather elect someone else.
- Terrence LEADS Feingold in the voter-rich Milwaukee media market 48% to 39%!
- The base is uniting behind Terrence Wall, already securing 79% of the Republican vote.

Pollster Gene Ulm summed it up by saying "The bottom line is that this survey strongly correlates with other public surveys: Russ Feingold is very vulnerable against Terrence Wall, who has just STARTED his campaign."

Click [here](#) to view the detailed poll results.

The numbers couldn't be more clear – we will defeat Feingold, and bring Wisconsin values to Washington – but we'll need your help to do it. I hope you will consider making a \$20.10 contribution to Terrence's campaign, to show Russ Feingold what year he will be retiring from the U.S. Senate.

Let's show Russ that we have been paying attention to his record of massive spending, and that we are ready, and ABLE, do something about it.

Let's Get Working!
